

INDEX

Note: Page numbers followed by *f* indicate figures, *t* indicate tables, and *np* indicate footnotes.

A

- ACRL standards, 260
- Action video games, perceptual and cognitive effects
 - for adults, 125–130
 - practical outcomes, 130
 - selective attention, 126–128, 130
 - speed-accuracy tradeoffs, 128–129
 - for children, 131–135
 - practical applications, 134–135
- Agricraft, 154
- American Academy of Pediatrics (AAP),
 - 3–4, 18–19, 76, 307–310, 316, 318, 331
- Animated character, 103, 107–108, 110
 - Dora, 4, 45–46, 56, 103–105, 111
 - key features, 108
 - Puppets and Muppets, 108
 - robotic dogs, 109–110
- Attentional Network Test (ANT),
 - 132–133
- Attention deficit hyperactivity disorder (ADHD), 5–8, 11, 173–174, 193–194
- Autism, 162, 173–174, 176–177, 193, 318
- Avatar, 122–123, 152–153, 164, 182–185, 189–192, 194
- AX-Continuous Performance Test (AXCPT), 128

B

- Baby video, 10–11, 13–18, 312
- Background media
 - mobile device, 3, 18–21, 62, 66–67, 75–76, 80–82, 174–177, 202, 305–306, 309, 327, 334–335, 338
 - negative effects, 56, 64–66, 68–70, 80
 - television exposure, 10–11, 65–67
- Blocking devices, 308–309
- Bridging theory and practice, 218–232

C

- California Critical Thinking Skills Test (CCTST), 260
- Capacity model, 223–225, 224*f*, 227–229, 229*f*, 231
- Cartoons, 7–8, 35–36, 40, 266–267
- Cave Automatic Virtual Environment (CAVE), 183–184, 192–193
- Children's exposure to problematic content, 278–294
- Children's Online Privacy Protection Act (COPPA), 310–311, 339
- Cocooning, 327
- Cognition
 - abilities, 124–125
 - development, 54–55
 - skills, 54
- Cognitive control, 129–130
- Cognitive flexibility, 188–189
- Cognitive Load Theory, 222–223, 223*np*, 226–229, 227*np*
- Cognitive Theory of Multimedia Learning (CTML), 225–229, 226*f*, 227*np*, 231
 - guidelines, 231
- Collaborative learning, 156–157
- ComputerCraft*, 154
- Connect2Compete program, 313–314
- Constructionism (theory of), 222
- Constructivism (theory of), 222
- Co-viewing, 13–15, 17–18, 43–47, 57–63, 68, 331–334, 336–337
- Creativity, 146, 158–161, 271
- Cross-platform learning, 230–231
- Cyber behavior, 249
- Cyberbullying, 285–289, 318

D

- Developmental resources theory, 247
- Dialogic questioning, 14–15, 44–45, 83, 332–333
- Dialogic reading, 62, 83, 332–333

Digital divide, 241–242, 312–315

Digital literacy, 255–256

- ACRL standards, 260
- affective mechanisms, 268–269
- children's media and technology, 254–256, 269–270
- competency-based measures, 258–262, 271
- description, 253
- face-to-face interactions, 33–34
- for-profit testing, 260
- framing, 253–255, 266
- future, 45–46
- humanistic approaches, 256–257
- initial challenge for children's, 30
- learning about pictures, 32–33
- media knowledge and, 265–268
- performance-based measures, 257–262, 270
- pictorial images, 30
- self-report measures, 256, 258, 261–265, 271
- social scientific perspectives, 257
- training, 294
- video(s)
 - children's concept, 33, 35–36, 39–41, 43
 - 2D still/moving images, 30
 - pictorial images, 30
 - problem solving, 5, 36–39, 94, 159–161, 167–168, 170–171, 176, 222–223, 223*np*
 - symbolic media, 29, 32–33, 41–42, 46–47

Digital media

- App Store, 221, 309–310, 312, 315
- attention-grabbing features, 306
- educational products and programs, 107–113, 306–307
- e-books, 18–20, 75, 79–80, 85, 316
- electronic toys, 76–87
- exposure to marketing, 311
- harmful/inappropriate content
 - blocking device, 308–309
 - internet pornography, 310
 - unhealthy food products, 308
- mirroring efforts, 316

- multimedia features, 85
- privacy and consumer protections, 310
- products for education, 222
- public-private partnership, 315
- River City*, 221, 232
- technological features, 85–86, 237
- words app, 84

Digital plush dolls, 222

Digital revolution, 77, 87

Doppelganger, 190–192, 194

Dual representation, 12–13, 41, 187, 189–190, 192, 194–195

Dual-tasking skill, 129–130

Dynamic game genres, 138

E

e-books, 18–20, 75, 79–80, 85, 316

Edugames, 168

Educational games, 146, 173, 219, 221, 223*np*, 227–229

Educational production

- animated characters, 103, 107–108, 110
- key features, 108
- Puppets and Muppets, 108
- robotic dogs, 109–110
- live child actors, 107
- media characters, 93–114
- production features, 107, 110–112

Educational television

- children's comprehension, 222–225, 224*f*, 229*f*
- creation of, 107–113, 218–220
- Sesame Workshop* Model, 219–220

Embodied agent, 182, 185, 187, 189–192

eSafety training, 294–296

Evidence-based educational practice, 220

Executive functioning (EF), 7–9, 19–20, 167, 181–182, 335–336

Exergames, 112–113, 117, 168, 170, 172, 174

Excessive Internet use, 291–292

F

Facebook, 177–178, 283–284, 289–292, 295, 297, 310–311, 339

Face-to-face interactions, 33–34

Federal Communication Commission (FCC), 308, 312–315
 Federal Trade Commission (FTC), 308, 310, 312
 Foreground media
 effect of, 63–64
 joint engagement, 57–63

G

Galacticraft, 154
 Gamification, 132, 137
 Grammatical development, 86, 202

H

Harassment, 285–287
 Head-mounted displays (HMDs), 183–184, 186, 189, 192–193, 195
 Human–technology interactions, 135–136

I

Imaginary world, 94
 Immersive technology, 183, 189, 192–193
 Immersive virtual reality (IVR)
 Cave Automatic Virtual Environment (CAVE), 183–184
 Infants and toddlers
 attention
 development, 5–11
 problems, 5–6
 brain development, 4, 187–190, 194
 brain-enriching activities, 3–4
 cognitive and social activities, 9–10
 educational programs, 4, 59, 107
 joint attention, 80
 parent–child interaction, 10–11, 14–15, 54–70, 78–81
 television
 attention deficits, 5–7, 11
 background, 7–11, 64–66, 69, 79–81
 co-viewing, 13–15, 17–18, 43–47, 57–63, 68, 331–334, 336–337
 executive functions, 5, 7–9, 11
 language learning, 15–18
 video deficit, 12–15, 60–61, 80–81, 189–190
 Internet
 an artifact, 238–239

assessment methods, 245
 children’s understanding, 239–241, 243–245, 247–248
 conceptual processes, 238–239
 description, 237
 developmental resources theory, 247
 inner workings, 239
 investigation studies, 240
 perceptual processes, 238
 social and technical complexity, 238–239, 244
 social understanding, 241–244, 246–247
 technical understanding, 241–247
 iSkills test, 260–262

J

Joint engagement, 53, 57–63, 65–66, 69–70
 Joint media engagement, 61–62, 334, 337

L

Language development
 grammatical and vocabulary development, 86
 Learning to learn, 46–47
 Literacy skills
 phonological processing, 205, 208–209, 211–212
 phonological recoding, 207–212

M

Media characters, 93–114
 Media production, 219, 258, 264–265, 268–271
 Media literacy, 254–271
 ACRL standards, 260
 affective mechanisms, 268–269
 children’s media and technology, 254–256
 competency-based measures, 258–262, 271
 description, 253
 Media mentor, 319, 329
 Media multitasking index (MMI), 135–136
 Message Interpretation Process (MIP)
 model, 262

Minecraft

- avatars and skins, 152–153
- creative mode, 150–152
- customization, 152–153
- educational research tool
 - collaboration, 158–159
 - cooperation, 158–159
 - nurturing creativity, 159–160
 - social interactions, 163
 - STEM, 162
 - struggling learners, 161–162
- modding, 152–154
- personalization, 152
- teaching and learning
 - framework, 156–157
 - increase engagement in, 157, 161–162
 - science and engineering, 155

Mobile media

- blocking technologies, 309
- positive potential of, 307, 312–318
 - internet and educational media, 312–313
- reducing negative impact of
 - exposure to marketing, 311
 - harmful/inappropriate content, 308
 - privacy and consumer protections, 310
- resources for
 - engagement opportunities, 319
 - families, 318
- V-chip, 308–309

Mobile technology

- complex and simple games, 175–176
- eye-tracking technology, 175–176
- teaching tool, 176

*Multiple object tracking (MOT), 127, 132–133**Multitasking, 11, 112, 129–130, 135–139, 169, 177–178, 212***O***OFCOM, 257–258, 263**Online aggression, 287**Online experience*

- differences among age group, 240–242

Orthography

- academic performance, 212–213
- good enough, 210–212
- literacy skills, 205–207
- self-teaching theory, 207–208
 - phonological processing, 208–209
 - phonological recoding, 207–212
 - spelling, 209–210

P*Parasocial relationships*

- breakups, 102–103
- categories, 95
- child questions & factors
 - assessing, 98*t*
- components of, 95*f*
- development model, 97*f*
- intelligent characters, 103–107
- parent questions & factors assessing, 96*t*, 98*t*

Parental mediation of Internet use

- adolescents, 334–336
- best practices, 339–340
- child perceptions, 330
- children, 331–334
- instructional mediation, 57–58
- moderators
 - culture, 336–337
 - ethnicity, 336–337
 - gender, 336
 - gender of parents, 337
- permissive mediation, 328–330
- recommendations, 339–340
- restrictive mediation, 58, 327–328
- teens' perceptions, 330

Parent-child interaction

- co-read picture books, 33
- co-view video, 17–18, 33

Parent-child joint engagement

- co-viewing, 13–15, 17–18, 43–47, 57–63, 68, 331–334, 336–337
- effects of, 59–64

*Phonology, 202–203**Pictorial images, 30**Picture books, 32–34, 43, 46–47**Privacy and consumer protections, 310**Proteus effect, 190–191*

R

Ready to Learn initiative, 316
 Realistic video images, 30
 Redstone, 155–156, 164
 Representational flexibility, 12
 Risky opportunities, 277–301
 coping, 296–298
 preventative measures, 294–296
River City, 221, 232

S

Sandbox, 149, 158–159, 163–164
 Scaffolding, 13–15, 17–21, 43, 54, 59, 80, 83, 104, 137, 176–177, 219, 237–238, 244–245, 247–248, 327, 333
